RE: Addendum #2: Snow and Ice Removal Services #081120221

To All Bidders:

Thank you for your interest in bidding this Stark Metropolitan Housing Authority project.

Please see below for questions that were submitted and SMHA response:

Q: We Request The Past/Last Awarded Bids Prices per location on Snow Removal and De-Icing services.

A: Please see attached requested information.

Q: In accordance to section 2.2.14 there are multiply questions About Reporting to Each Property Manager about each site before and after arrival and departure time.

- 1.The amount of time to do this in the middle of the night while most are sleeping is not a good use of time.**
- 2.The time it would take our employees to take pictures and the amount of pictures of each site would be a waste of time and/or emails. The sites would not be cleared in the time that is requested in a timely manner IFB.**
- 3.We feel that this clause need to be revised. Because when snow if falling the safety of our crews getting to other sites not being on technology and doing the job is more important, than taking pictures and reporting arrival and departure times.**

A: As stated in Section 2.2.14, one instance when the Contractor must report to the Property Manager or Maintenance Supervisor is when arriving on site to perform the services included in this Invitation to Bid (IFB) and at the completion of service for approval. The work that is part of this IFB and the resulting contract requires on foot work, i.e., clearing of sidewalks, etc.

If the Property Manager or Maintenance Supervisor is not available for approval of work, for example on the weekend or during the night, the Contractor will be required to take and send pictures to the Property Manager as detailed in Section 2.2.14.5.1. These pictures may be taken with a cell phone camera. For workers driving plow trucks, pictures may be taken from the vehicle as long as clear views are shown as described in Section 2.2.14.5.1.

Section 2.2.14 will remain and become part of any resulting contract(s).

Q: In section 2.2.9.6

The question here is the amount of time this would take and is this considered a call back?

How is this time and services billed to starksmha?

We feel that this is another area that needs to be revised as to get this service done would take hours for crews to shovel by hand, which in turn would get other sites that needed the regular service not get completed, unless this was an additional service on a need basis only.

A: Pricing is per site per type of service. See the Bid Fee Sheet in Attachment B of this IFB. For each service location, there will be a set price for the following three types of service:

- (1) Plow Parking Lot/Clear Sidewalks Snow
- (2) Treatment Parking Lot and Sidewalks Ice
- (3) Plow Parking Lot/Clear Sidewalks and Treatment for Ice and Snow.

The Contractor will bill the set price that corresponds with the location and service that was rendered. If a call back is required due to the Contractor failing to remove snow and/or treat ice as described in Section 2.2.9, as stated in 2.2.13 work performed in response to the call back will not be billable. If additional service is required due to new snow and/or ice accumulation or requested by SMHA staff, that additional work performed will be billable at the set price for the service(s) provided at the location.

Q: In Section 2.2.10.1

The question here is How is this service/supply charged to starkmha?

Also will property managers notify when they need replenished?

Also how many buckets of ice melt are we going to have to supply per site because most need more than 1 bucket to complete the service.

A: Please provide a material markup percentage for Ice Melt or equal environmentally safe, concrete-friendly ice melting solution or granule below:

Material Markup _____ %

If a material markup is not provided herein, the material shall be provided to SMHA at the Contractor's cost. In either case all invoices that include material must be accompanied by documentation showing contractor's cost to acquire the material.

The Property Manager or Maintenance Supervisor will notify the Contractor when buckets are deemed necessary at a site. SMHA reserves the right to purchase ice melting solution or granule from sources other than the awarded contractor(s).

Q: Could you please tell me the dates this RFP includes.

A: This is an Invitation to Bid (IFB), not a Request for Proposal (RFP). Bids for this solicitation are due on September 27, 2022, by 2:00 PM (EST). Any resulting contracts will begin in October/November 2022 timeframe and will be in effect for one to five years.

Please remember to acknowledge this addendum by signature in section F, line F.2 in Attachment B 'Bid Fee Sheet' of the solicitation.

Thank you,

Marjorie L. Tyson
Procurement & Contracting Specialist
